“FFA allows for its members to find their passion, develop lifelong leadership skills, and pursue successful careers in many different agricultural industries. From this organization I have learned to be who I am now and have found who I want to be in the future.”

Garrett Hartigan, Third Vice President

**Motto:** Learning to Do, Doing to Learn, Earning to Live, Living to Serve

**Mission:** FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education.

FFA is one component of the Agricultural Education Instruction model, which combines classroom/ laboratory instruction, experiential learning and FFA into an integrated learning experience for students. To participate in FFA, students must be enrolled in an agriculture education class.

**Classroom/Laboratory Learning**

The 53 Agricultural Education programs in Wyoming are each unique in their own way as is the agricultural industry across Wyoming. Classes range from Agricultural Business to Agricultural Economics, Animal Science, Horticulture, Agricultural Mechanics, Natural Resources and Leadership. Agricultural education also teaches life skills, career exploration and readiness, and leadership.

**EXPERIENTIAL LEARNING (SUPERVISED AGRICULTURE EXPERIENCE)**

- SAEs help solidify concepts learned in the classroom or through FFA experiences, and incorporate the student’s individual interests and goals.
- Members exhibit their SAEs at different events throughout the year, including county fair, state fair, state agriscience fair and other local events and competitions.
- FFA proficiency awards program gives students the opportunity to compete in 47 areas covering everything from Agricultural Communications to Wildlife Management.
Wyoming FFA members’ supervised agriculture experience project investments result in a $7.5 million economic impact annually to our state.

**FFA Overview**

- Career Development Events and Leadership Development Events are skill-based competitions to help students develop the abilities to think critically, communicate clearly and perform effectively in a competitive job market. Wyoming FFA offers 17 CDEs and LDEs, covering job skills in everything from communications to mechanics. Some events allow students to compete as individuals, while others allow them to compete in teams.
- Members can apply for college and technical training scholarships through FFA. Wyoming FFA Members are awarded over $100,000 annually in scholarship dollars at the State FFA Convention.
- FFA members are also eligible to compete for more than $2.4 million in scholarships through the National FFA Organization.
- 8 out 10 students surveyed are more likely to pursue higher education because of FFA.
