

2018 AP Geography Workshop

July 9-10, 2018

University of Wyoming

Laramie, WY

- The Wyoming Geographic Alliance will be offering a training opportunity for interested educators **July 9- 10th** at the **University of Wyoming in Laramie** lead by Professor Alec Murphy.
- Presentations will focus on the ways in which core geographic concepts set forth in the **AP Human Geography** course outline—region, pattern, place, space, and scale—provide insight into fundamental developments unfolding around the world.
- The core geographical concepts will be used as critical lenses for assessing such topics as migration patterns, geopolitical upheavals, environmental change, and the possibilities and challenges of European integration.
- The goal is show how geographical concepts and perspectives help us understand and evaluate the complex forces shaping the contemporary world.
- The **course is free** and participants are eligible for one credit through the Wyoming Professional Teaching Standards Board Professional Development Program.
- Participants may earn one graduate level credit from the University of Wyoming (subject to University of Wyoming fees). To register follow this link [AP Geography Registration](#)
- Participants are eligible to receive a **\$50 travel stipend** from the Wyoming Geographic Alliance.
- Daily schedule and course outline will be available in the coming weeks.
- To access the AP Geography Weekly Bell-Ringer please follow the link provided [AP Human Geography Bell-Ringer](#)
- To sign up please complete the attached form and return it to Robert Rust wga@uwyo.edu

Presentation Leader: Alexander Murphy is Professor of Geography at the University of Oregon, where he holds the Rippey Chair in Liberal Arts and Sciences. He specializes in political and cultural geography, with regional emphases in Europe and the Middle East. Murphy is Past President of the American Association of Geographers and Senior Vice-President of the American Geographical Society. In the late 1990s he led the effort to add geography to the College Board's Advanced Placement program. He then chaired the inaugural AP Human Geography test development committee, which produced the template for the course outline and exam that is still in use today.
