Dept. of Mathematics
University of Wyoming
Laramie, WY

Join us this summer to learn about AP Computer Science Principles, the largest course launch in the history of AP exams! Learn about introducing computer science in your classroom, and how the AP CSP course promotes diversity in computing.

- PD offered online through UWyo distance education
- Workload is approximately two weeks
- Complete the training over the summer on *your* schedule
- We will pay for tuition, and you will receive a \$2,000 stipend upon completion
- PD is based on the *Beauty and Joy of Computing* curriculum, but training is applicable to other curricula
- PD also covers practical aspects of teaching AP CSP, both from our own experience teaching the course and from the national community of AP CSP teachers
