EL Counts and Title III

- Allocations are based on Active EL students
- We are a minimally funded state

Why are you Required to have a Core EL Program?

- *Lau* obligation
- Failure to provide EL students with other adequate instructional procedures denies them a meaningful opportunity to participate in a public educational program

● Are EL students gaining the proficiency in English that enables them to participate meaningfully in the educational program?

● If a program is not working effectively, a school district is responsible for making appropriate program adjustments or changes.

● Districts may design their own approach to EL program evaluation.
Designing Your Own Approaches to Self Evaluations

Examples of benefits from self-evaluations that various school districts and other stakeholders reported include:

- Increased stakeholder participation and support of academic goals.
- Maintained or increased accountability for meeting program goals and student outcomes at all levels of the program.
- Establishing concrete information and examples of successful program strategies and areas where the program is achieving goals and objectives.

The Access report is under the Assessment Confidential tab, it is at the top of the list and is called ACCESS Student Level (2017-18)
Composite Scores in Less Than Four Domains

Creating an Overall Composite Score for English Learners with Individualized Education Plans or 504 Plans.

A model can be used to impute a missing domain score for calculating an overall composite score. These only apply to ELs with IEPs or 504 Plans requiring that they not be assessed in one or more domains.
Participation Rate for English Learners on the ACCESS Assessment
Participation Rate Requirement

A participation rate requirement of 95% is required for all students on the ACCESS 2.0 & ALT ACCESS for students who have attended school for a full academic year (FAY) students.
Participation Rate Calculation

Participation rate is calculated by the number of students who tested divided by the number of students who should have tested at the school.
Participation Rate Adjustment

There is an adjustment rule that is employed when determining a school's participation in testing to ensure that no school is held above the 95% requirement.
The Exemption Request Process for Statewide Assessments
Exemption Request Process for Statewide Assessments

- All students are expected to participate in the Wyoming Assessment System.
- Every effort must be made to inform parents, guardians, and students of the testing calendar.
