3. **Eligible service providers participating in waiver and affirmation that they are in good standing:**

   State-wide waiver request for all participating SFSP sponsor organizations

4. **Description of the challenge the State agency is seeking to solve, the goal of the waiver to improve services under the Program, and the expected outcomes if the waiver is granted. [Section 12(I)(2)(A)(iii) and 12(I)(2)(A)(iv) of the NSLA]:**

   The State agency is seeking to request a state-wide waiver for the SFSP flexibilities that were rescinded by FNS on October 11, 2018 as part of SFSP 01-2019. The waiver addressed in this request is SP 07-2013 and SFSP 04-2013.

   These FNS waivers have benefited both the State agency and SFSP sponsors by helping them efficiently operate the SFSP in a more cost effective manner. It has also allowed SFSP sponsors to align the SFSP meals more closely with the enrichment programs operating in their communities. These waivers have also allowed sites to be more welcoming and increase the number of children reached by the SFSP. Rescinding these flexibilities will place undue burden on both the State agency and the SFSP sponsoring organization and sites.
Specifically to Wyoming, we have seven total non-school food authorities that participate in OVS. Two residential camps along with five other sites benefit from OVS.

The City Kids Wilderness Project in Jackson, Wyoming hosts children from Washington DC. These children are nominated by their teachers to participate in this outdoors camp mainly due to their home life circumstances and low income situation. The children at these camps do not come from a family situation where there would be many options for meals at home. The offer vs. serve style of meal service gives these children a chance to have an option of what they can choose to eat.

The C5 Youth Foundation is similar to the City Kids Wilderness project, but the youth selected for this program come from the inner areas of Los Angeles. Offer vs Serve helps to give these children an option for what they would like to eat.

In addition to allowing for more options for kids that would not normally have these choices offer vs serve helps with food waste at these sites.

The other sites include the Boys and Girls Club of Douglas, Boys and Girls Club of Cheyenne, Powell Valley Healthcare, and Boys and Girls Club of Rock Springs. All of these sites have saved on food waste. These sites have also noted that the meals served are much more appealing to the children because they can choose what they are eating.

5. **Specific Program requirements to be waived (include regulatory citations). [Section 12(l)(2)(A)(i) of the NSLA]:**

**Offer Versus Serve:**

We are requesting a waiver to extend Offer Versus Serve to non-school food authority sponsors and to allow OVS with use of both the NSLP and SFSP meal patterns.

*Section 13(f)(7) of the NSLA OFFER VERSUS SERVE.—A school food authority participating as a service institution may permit a child to refuse one or more items of a meal that the child does not intend to consume, under rules that the school uses for school meals programs. A refusal of an offered food item shall not affect the amount of payments made under this section to a school for the meal.*

*42 USC 1761(f)(7) OFFER VERSUS SERVE.—A school food authority participating as a service institution may permit a child to refuse one or more items of a meal that the child does not intend to consume, under rules that the school uses for school meals programs. A refusal of an offered food item shall not affect the amount of payments made under this section to a school for the meal.*

*7 CFR 225.16(f)(1)(ii) Offer versus serve. School food authorities that are Program sponsors may permit a child to refuse one or more items that the child does not intend to eat. The school food authority must apply this “offer versus serve” option under the rules followed for the*
National School Lunch Program, as described in part 210 of this chapter. The reimbursements to school food authorities for Program meals served under the “offer versus serve” must not be reduced because children choose not to take all components of the meals that are offered.

6. **Detailed description of alternative procedures and anticipated impact on Program operations, including technology, State systems, and monitoring:**

**Offer Versus Serve:**

All SFSP sites, regardless of location or type of sponsorship, may utilize OVS. Use of OVS will be extended to non-school sponsors. All non-school sponsors electing to use OVS and schools participating in SFSP and electing to follow the SFSP meal pattern will be required to follow the SFSP OVS requirements as outlined in SFSP 06-2017. Sponsors must indicate their intention to utilize OVS on the sponsor or site application. School sponsors that elect to use the NSLP or SBP patterns and SFAs operating SSO will be required to follow the OVS requirements of NSLP and SBP.

7. **Description of any steps the State has taken to address regulatory barriers at the State level. [Section 12(l)(2)(A)(ii) of the NSLA]:**

Previously, the State agency has not had to address any regulatory barriers as these flexibilities were in place.

8. **Anticipated challenges State or eligible service providers may face with the waiver implementation:**

The State agency does not anticipate that these waivers will present any challenges to the agency or SFSP sponsor organizations as these flexibilities have already been implemented and in place.

The challenges that the State Agency and SFSP sponsor organizations may face if the waiver is NOT approved include:

- Increased burden to State agency to update training materials, re-train SFSP sponsors and State agency consultants, and monitor compliance regarding rescinded flexibilities
- Increased food costs and food waste for SFSP sponsors not allowed to implement OVS
- Decreased child satisfaction with tray selection requirements with potentially decreased participation at site
- All the statistics state that a child is more likely to eat the food if they choose what is on their plate.
9. **Description of how the waiver will not increase the overall cost of the Program to the Federal Government. If there are anticipated increases, confirm that the costs will be paid from non-Federal funds. [Section 12(l)(1)(A)(iii) of the NSLA]:**

The State agency does not anticipate that these waivers will increase the overall cost of the Program to the Federal Government. These waiver will however continue to assist the SFSP sponsors and the State agency stream line and control costs to their programs.

10. **Anticipated waiver implementation date and time period:**

To be effective with the start of the SFSP, by February 2020 and approved for a period of 1 year.

11. **Proposed monitoring and review procedures:**

The State agency will continue to follow their standard SFSP review procedures. Sponsors found to have noncompliance issues as related to these waivers will work with the State agency on an individualized corrective agency plan and will have follow-up reviews scheduled as needed.

12. **Proposed reporting requirements (include type of data and due date(s) to FNS):**

The State agency will report to FNS any compliance issues noted with these flexibilities during application approvals and reviews by October 1, 2020.

13. **Link to or a copy of the public notice informing the public about the proposed waiver [Section 12(l)(1)(A)(ii) of the NSLA]:** The public notice is located at:
