

## **Guide to Determine Allowable Expenditures for Part B IDEA VI-B Funds**

This guide has been designed to assist school districts in determining the appropriate use of funds for special education expenses with the Part B IDEA Grant. While there is significant cross-over in funding from both the Education Resource Block Grant Model (via the Reimbursable Special Education Expenditures Report - WDE401) and the Part B IDEA Grant, it should be noted that the WDE401 reimbursement is intended to be IEP/student driven; the Federal reimbursement should be anything over and above the student-driven reimbursement. In addition, allowable IDEA costs must also be *necessary, reasonable and allocable* for proper and efficient performance and administration of the grant. A cost is reasonable if it does not exceed what a district would normally incur in the absence of federal funds. Additional guidance about standards for determining costs for federal grants is available from Office of Management and Budget (OMB) 2 CFR, Part 225

[https://www.whitehouse.gov/sites/whitehouse.gov/files/omb/federal\\_register/FR2005/083105\\_a87.pdf](https://www.whitehouse.gov/sites/whitehouse.gov/files/omb/federal_register/FR2005/083105_a87.pdf)

For a particular expenditure to be allowed on IDEA Grants, it must be an excess cost of providing special education and related services. “Excess costs” are the expenditures incurred to provide special education and related services that exceed the amount necessary to provide a basic education to all students. Only allowable expenditures may be charged to the federal flow-through or preschool IDEA VI-B Grants. In expending VI-B federal IDEA VI-B grant monies, costs must be necessary, reasonable and allocable for the performance of the grant.

### **Maintenance of Effort.**

(a) Except as provided under the Sections 34 CFR §300.204 and 205, funds provided to a local education agency (LEA) under the Individuals with Disabilities Education Act (IDEA) must **not** be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from state and local funds below the level of those expenditures for the preceding fiscal year (or the last fiscal year that MOE was met).

(b) An LEAs Maintenance of Effort is calculated using a comparison of district reported WDE401 – Reimbursable Special Education Expenses Report (WDE401) total costs from the previous two years. In order to meet this requirement an LEA must not have reduced its level of expenditures for the education of children with disabilities from one year to the next based on allowable WDE401 expenditures.

**Calculating Excess Costs.**

(a) Except as otherwise provided, amounts provided to an LEA under Part B of the IDEA may be used only to pay the excess costs of providing special education and related services to children with disabilities. Excess costs are those costs for the education of an elementary school or secondary school student with a disabilities that are in excess of the average annual per student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate. An LEA must spend at least the average annual per student expenditure on the education of an elementary school or secondary school child with a disability before funds under Part B of the IDEA are used to pay the excess costs of providing special education and related services.

(b) Section 608 (8) of the IDEA and 34 CFR §300.16 and 202 (b) require the LEA to compute the minimum average amount separately for children with disabilities in its elementary schools and for children with disabilities in secondary schools. LEAs may not compute the minimum average amount it must spend on the education of children with disabilities based on a combination of the enrollments in its elementary and secondary schools.

(c) School districts are required to complete the annual excess cost calculation in a manner and format specified by the department.

## Frequently Asked Questions

When determining whether an expenditure is an excess cost, consider these guiding questions:

*“In the absence of special education and related services, would this cost exist?”*

*If the answer is...*

No, it is an excess cost.

Yes, it is not considered an excess cost and is not allowed.

*“Is this expenditure also generated by students without disabilities?”*

*If the answer is...*

No, then the expenditure is an excess cost.

Yes, then the expenditure is not an excess cost and is not allowed.

*“If it is a child specific service, is the service documented in the student’s IEP?”*

*If the answer is...*

Yes, then the expenditure is an excess cost.

No, then the expenditure is not an excess cost and is not allowed.

The following chart lists budget items for the IDEA Part B flow-through or preschool entitlement grants.

	 		<b>CONSTRUCTION:</b> Of either new facilities or altering of existing facilities.	<p>LEAs may not use IDEA federal funds for construction or alteration of existing facilities.</p> <p>However, if there are renovations that are required and necessary to provide FAPE to a child with a disability and it is listed on that child’s IEP, then it may be allowable. Request for approval must be submitted to WDE with all documentation and justifications for the construction or alterations of existing facilities. The LEA must have approval prior to proceeding with any construction.</p>

			<b>Miscellaneous</b>	
IDEA		 	<b>Entertainment:</b> Amusement, social activities	Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the Federal award or with prior written approval of the Federal awarding agency. <a href="#">CFR §200.438</a>
IDEA	 		<b>Food purchases</b>	<p>OSEP has a very high standard for justification of the use of IDEA funds for food and these purchases are audited very closely. Please refer to the following regarding food purchases:</p> <ul style="list-style-type: none"> <li>• Food purchases for meetings are to be used with extreme caution. Guidance does not prohibit using Federal funds <b>if</b> they are mandatory to the success of the meeting. For example, if there is not a place nearby for participants to get meals or that it would limit the purpose of the meeting if participants had to leave to get meals and refreshments. It is the same for a working lunch, you can use IDEA funds to provide a working lunch but you must have <b>very clear</b> justification. The safe answer is that you do not use Federal funds. The use of general funds for these purposes is preferred. However, if you choose to do so you must keep detailed documentation as to why you provided the meals and why it was necessary for the success of the meeting. It then becomes the auditor's call if it was necessary.</li> <li>• Food purchases such as candy/snacks for students are NOT allowed unless they are directly tied to a particular student's IEP. If this is the case, accurate documentation must be kept and you must provide an explanation with the purchase.</li> <li>• Food purchases while transporting a student to and/or from treatment may be allowable depending on the timing of the trip, who was required to go and if the costs were reasonable and necessary in support of the student's receipt of services in his/her IEP. As with the others, documentation must be kept on file and an explanation must be provided with the purchases.</li> </ul>
IDEA		 	<b>Gift Cards</b>	IDEA funds should <b>never</b> be used to purchase gift cards or gift certificates of any kind. This is not an allowable expense.

IDEA	<input checked="" type="checkbox"/> 		<b>Incentives for behavior (Including PBIS)</b>	IDEA funds should rarely be used for incentives, including those used for PBIS. It is usually best to use general funds for incentives. The only exception to this is if an incentive is tied directly to a particular student's IEP with an accompanying behavior plan indicating the need for incentives. If this is the case, documentation must be kept on file and it must be clearly identified with the purchase.
